## SCALING MOUNTAINS

### Remarkable Trip of a Party of Boys.

### CROSS RANGE FROM KOOLAU TO EWA

### Not a Pleasure Jaunt by Any Means Among High Oahu Mountains.

Editor Advertiser—A very interesting and uncommon feat in mountain climbing was accomplished last week by a party of five Honolulu boys, consisting of Charles and Gerrit Judd, Alexander Walker, Richard Cook and Seymour Hall. The start was made from the Judd place, Kealahou, in Koolau, and the finish was Pearl City, on the other side of the range.

At a little after 4 o'clock Thursday morning, and while it was yet dark, we set out in a wagon, which took us around a small ridge to the mouth of Waikane valley. There, after strapping on our provision bags and canteens, we started out to foot our way across the range to Pearl City. Windy along the narrow mountain path the first thing of interest was what we judged to be a moonshiner's hut, or okoliha factory, not many feet to our right, guarded by a husky native with a big rifle, and a suspicious curl of smoke issuing from the roof. After filling our canteens at the last stream we commenced the ascent of the ridge which separates the Waikane and Kahala valleys. The trees and undergrowth were very much the same as on Kona, but far more dense. Maile was very abundant; so, also, was mokiha. All took turns at making a path, or "breaking," as we called it. During the short stops for breath we were inspired to fresh exertions by the wonderful view which stretched at ever increasing angles, as we crept higher. About two-thirds of the way up some splendid specimens of Hawaiian or loulou palms grew close to the top of the ridge. A little farther on from the last of these palms the way became even more difficult and dangerous. Sometimes the ridge was so sharp that the decayed vegetation fairly seemed to tremble as the weight of our bodies passed over it, and at these times a steady head meant everything. The last hundred yards to the summit we literally walked over the tops of trees, so thick was the jungle. At 9:50 all were seated in the topmost branches of a kukui tree for lunch, having made the ascent in five hours and five minutes from where we left the wagon. An hour was spent in refreshments and getting our bearings. By this time the fog began to sweep over and around us, clearing only for short intervals. On the Koolau side we could easily see Maui and Molokai, and to the left as far as the end of the range. On the Ewa side stretched the plains Leilua and Pearl lochs, but the sight of Honolulu was cut off by the peaks to our left. After leaving our register (a water bottle) hanging in the branches of our lunch table, we worked to the right or southeast on what we judged was the main ridge, hoping soon to find more accessible walking than the tops of wet and decayed trees. This we did not find, so we tried our luck on the slippery ground underneath, only to discover presently that our main ridge was an optical delusion, the ridge opposite being in a straight line and of the same height as the one we were on. So, down we went, ten or more feet at a time, to follow the stream along the floor of the valley. This proved almost as hard as climbing over trees on the summit. In some places it would have been "fat man's misery," the sides were so close together, and to pass which we had to straddle along, bracing our hands and feet against the rough places in the two parallel walls of rock. On we went, nevertheless, the sides gradually widening, and so lessening the danger of falling rocks from above, signs of which we had but recently passed. In one of the hundred and twelve turns that we counted was a large clump of native or iholena banana trees. About one-fourth of the way down this zigzag valley we came upon an inverted coffee pot on the branch of a tree, a sign that some one had been that far at least, and still more important sign that we would not have to fear any high waterfalls. We saw so many good signs that we were nearing the end of the valley, and which never materialized, even after eight hours and a half's tramp, that the good signs lost their charm entirely. Bump, plunk, grind, splash over rocks and through water till footsore and weary, we simply stopped short on a small grass covered mud ledge at 7:30. Having taken off our wet shoes and stockings, all that we could find in the way of firewood was one small dead tree, very wet to be sure, but as we did not expect to find all the comforts of home in the valley, this tree was joyfully received. Presently a fire was struggling for existence, and the greater part of our clothing was hung in the smoke to dry (?). Having finished our dinner of bread, sharks (sardines), and stick chocolate, we bunked for the night on some scattered fern leaves. We passed a most thrilling night, for about 11 o'clock it rained so hard we thought we were in Hilo, and drenched through. We shivered and shook until about 5 a. m., being as near right as we could judge, the one watch of the party having been drowned during the night. We were on the go again at five, resolved to make a final struggle for upper air, and reached a grassy ridge to the left, and straightway pushed through the staghorn and out into the broad sunlight almost opposite the west end of the range. We were now on the plains of Leilua, and we concluded that the valley out of which we had just come was a branch of the Waikane valley.

The rest of our journey to Pearl City was only a question of miles and

hours. Our spirits immediately arose after getting out of the valley, and with visions of Chinese "apple pie and soda water" before us, we pressed on, arriving in time for one pie and two bottles of soda water apiece, and the 1:20 train for town.

### ONE OF THE PARTY.

A CURE FOR CHOLERA INFANTUM.  
"Last May," says Mrs. Curtis Baker, of Bookwater, Ohio, "an infant child of our neighbor was suffering from cholera infantum. The doctor had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera, and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days' time the child had fully recovered, and is now (nearly a year since) a vigorous, healthy girl. I have recommended this remedy frequently, and have never known it to fail in any single instance." For sale by Benson, Smith & Co., Ltd., wholesale agents.

### AS WELL AS EVER.

Remarkable Recovery of an Octogenarian From a Fall.  
Old Mr. Pratt, father of Dr. Pratt, is on the street again, after a month's confinement as the result of injuries received when a horse he was riding reared and threw himself over backwards.

Mr. Pratt barely escaped being crushed under the fractious animal by throwing himself to one side. As it was, one arm was lacerated and his back wrenched. Mr. Pratt, who is 85 years old, was on his way up to the Fall on horseback to meet his son who was coming over from the other side of the island. After the fall he walked back as far as the brickyard, where the doctor overtook him and carried him the balance of the way home in his brake. When Mr. Pratt's great age is considered, it is wonderful that he escaped from what might have been a serious matter for a man sixty years younger.

### WILL GRIND OLAA CANE.

About 16,000 Tons to be Handled by Waiakea Mill Co.

Manager McStocker of the Olau Sugar Co., completed arrangements last week with Mr. Kennedy, manager of the Waiakea Mill Co., for the grinding of about 16,000 tons of cane. The Waiakea company's cane cars will be taken to Olau on flat cars of the Hilo Railway Co., where the cane will be loaded and brought to Waiakea and put on crows to be transported to the mill. The cars of the Waiakea Co. being narrow-gauge it is not possible to run them over the tracks of the Hilo railway. It is expected that about 250 tons of cane will be transported and that grinding will occupy about six weeks. Mr. McStocker has had an analysis of the cane from Mr. Kennedy, which shows it to be a very good quality and is very satisfactory to Mr. Kennedy. It is said now that the Olau mill will not be ready before November.—Hilo Herald.

### ANNOUNCEMENT.

To All the Island Residents Interested in Literary Work.

The Literary Circle of the Kilauea Art League invites both from its members and from the general public, competitive contributions for the year 1901 in the following lines of literary work:

First. Original stories.  
Second. Original verse.  
Third. Original critical essays on the work, or a phase of the work, of a selected author or historical character.  
Fourth. Original critical or comparative studies or group of authors, literary work or schools of thought.  
Fifth. Original essays dealing with social, economic, educational or sociological problems connected with our island or National life.  
Sixth. Original dramas or original dramatization of published stories or poems.

All contributions are to be mailed to Mrs. Selma Kinney, not later than November 25th from the other islands and November 30th in Honolulu.

All manuscripts should be signed by a nom de plume, and each should be accompanied by a sealed envelope, bearing the same nom de plume on the outside, and containing the real name of the author, with address.

If it is desired that the manuscript should be returned, postage should be enclosed.

A competent committee will be appointed by the Literary Circle of the League to study and compare the various contributions, and first, second, and third mention of best contributions in each class will be made by the committee in the public press as the submitted work justifies.

It is the further intention of the Literary Circle to make selections from the best contributions for presentation at their "At Homes," to be given at the League rooms during the coming winter, the selections to be presented either by the author, personally, or by some one chosen for the particular selection to be rendered.

Respeaking a wider interest throughout the islands in these various lines of literary work, we are, on behalf of the Literary Circle of the Kilauea Art League,

SELMA KINNEY,  
MARY DILLINGHAM PEARL,  
ELIZABETH VAN CLEVE HALL,  
Committee.

Notice—When you need whisky always ask for the best quality. "Kentucky Favorite," of Spruance, Stanley & Co., San Francisco.

### JUST PUBLISHED!

By the Hawaiian Mission Children's Society, a

### HISTORICAL MISSIONARY ALBUM

containing brief sketches of 182 Protestant Missionaries to Hawaii, and half-tone engravings of 132 of them.

The book is 9½x12 inches, has 110 pages, and weighs, when wrapped for mailing, about 3 pounds.

Price, bound in dark cloth, \$5.00 in Morocco, 7.50  
Postage, 25c. extra.

Sample copies may be seen at Thrum's Book Store, Fort St.

Orders will be filled upon application to R. W. Andrews, telephone Blue 1052, or P. O. box 143.
